Running the UPA Instagram account is a big job. A lot of people want us to repost. We want to repost everyone, but we just can't.

A VIPoler Pass is a paid option to be posted when you want.

We do theme weeks, and find content to repost based on that theme, and during these themes, we repost for free.

But even then, we are selective.

To ensure that you get posted, we've created the VIPoler option. Not only does it force us to see your content (because often there is much to sift through) it helps us maintain this account. It takes time and money to maintain an account of this size and keep the community engaged and happy. And we want nothing more than to connect newer polers with less visibility to the community. So, take the time to read the next few pages of this kit to learn more.

Thank you. ~ Annemarie Davies
